The diagram consists of a horizontal bar divided into 12 equal segments by vertical lines. The first segment from the left and the fourth segment from the left are shaded gray. The remaining segments are white. This represents the fraction $\frac{4}{12}$, which simplifies to $\frac{1}{3}$.

A 10x10 grid with a black triangle on the left and a gray triangle on the right. The black triangle is formed by the left edge, the bottom edge, and a diagonal line from the bottom-left corner to the top-right corner. The gray triangle is formed by the right edge, the bottom edge, and a diagonal line from the bottom-right corner to the top-left corner. The two triangles meet at a vertical line in the center of the grid.
